- | | | |
|--------------|----------------|----------------|
| • JavaScript | • MongoDB | • React Native |
| • React.js | • HTML5 & CSS3 | • PHP |
| • Node.js | • Git & GitHub | • MySQL |

EXPERIENCE

Web Application Development Intern - May 2026 to September 2026

Kakunje Software Private Limited | Mangalore, Karnataka

- Contributed to the development and maintenance of web applications using modern frontend and backend technologies, ensuring responsive and user-friendly interfaces.
- Participated in the design and implementation of a Restaurant Management System featuring online ordering, reservations, billing, inventory management, and secure user authentication.

PROJECTS

Resto – Restaurant Management System

React, Node.js (Express), MongoDB

- Developed a Restaurant Management System using React.js, Node.js, and MongoDB.
- Implemented ordering, reservations, billing, and inventory management features.
- Enabled real-time order tracking, secure authentication, and role-based access.
- Improved operational efficiency through automated workflows and reporting.

AutoConnect – Ride Booking Application

React Native, Supabase

- Developed a cross-platform ride-booking mobile application using React Native and Supabase
- Gained experience in implementing real-time driver matching and live ride tracking
- Learned integration of Razorpay payment gateway for secure digital transactions
- Improved understanding of backend services, API handling, and real-time data synchronization
